

WEI-MO

WEINMANN MOTORSPORT

Der Countdown läuft: Am 23. März beginnt die Saison für die Weinmann-Brüder

New Bike, New Targets and Newsletter Premiere

“We’re fully motivated!”

The sidecar, clothing, boots, and helmets are all brand new. The gleaming, spotless equipment reflects the ambitions of Joshua and Noah Weinmann. After six top-ten finishes and 14th place overall in the 2024 World Championship, as well as third place in the German Championship, their goals for the 2025 season are clearly defined. “We want to finish in the top ten in the World Championship, and the title is the goal in the German Championship,” explains rider Joshua, outlining their sporting plan.

The two youngsters, aged 23 and 19 respectively, from Crispenhofen near Künzelsau, have created the necessary conditions themselves with the help of their crew. “A new frame for our sidecar was produced at VMC in the Netherlands. Action Motor Sports, a New Zealand tuner, is building two KTM engines for us with 612 and 671 cc displacements and around 75 hp peak power,” specifies passenger Noah.

The sponsors are also backing them. All existing supporters are staying on board, and several new ones are joining the duo's ambitious plans for the first time. And because things are looking up, results and news will be communicated after every race via the newly launched newsletter, as well as on Instagram (@team_weinmann) and the website (www.wei-mo.de).

The countdown is on.

Race Dates 2025

World Championship

- 11. Mai Kramolin/CZ
- 25. Mai Foxhill/GB
